I will issue a Weekly paper, to be called "The Casse." at the city of Columbus, and State of Ohio. at five dellars per annum, of fifty-two numbers, 1 ayable always in advance, and to commence during the month of Jamaary, (1861.) As it will be desirable to both parties to have a fall set commencing with number 1, it will be important for subscribers to send their names as early as possible, so that I can form some estimate of the edition to commence with.

ole, so that I can form some estimated the second commence with.

I have a great many reasons for publishing this paper, as will more clearly appear to my reasons as it progresses, and hence I shall offer neither excuse nor apology for what, at first view, to some, may be considered a single description. gular determination.

"I HE CRISES" will fully and thoroughly sift the great issues that hang like a cloud of night over our common country, and if our nationality, as it is, cannot be preserved whole and undivided, the still greater question and light to the still greater question and light to the still greater question.

we are already whirling to the dark abyss of dissolution and chaos, in the name of humanity let us halt and not rush headlong into civil commotions such as have never before reddened the earth with a brother's blood.

But a Prospectus is no place to argue great questions. "The Causis" will do that at length, and without gloves. I will speak freely of men and measures, and call things by their right names. When a great country and the fate of a mighty people are at stake. It is no time to retreat to our closets to nick words of delicate meaning, or to hunt phrases to nit like music on the ear of love. We are passing dangerous shoals in a frightful storm, and it is unmanity to sit in mimic pantomime of a resignation in Providence. He who would not assist in saving us from this impending wrack, would not defend his wife and children from the fatal dagger raised to atrike before his eyes.

"Thus Causis" will also be of a general character, and as varied in its subjects as the nature of its nais purpose will admit. I shall especially devote a number of stricles to the political and material interest of Kansas and Minnesota, where I have mostly resided since the spring of 1857, and in both of which I have taken no inactive part.

To my friends in Ohio, I once more appeal. I have

part.

To my friends in Ohio, I once more appeal. I have often done so, but never in vain. In this terrible crisis in our affairs, will you not stand by me in this last appeal which, in the nature of things, I can never make again. God has spared my life to witness this mouruful and gloomy scene—ta witness the distroying angel passing almost unheeded over our fair and, crushing the hopes of millions in its dread flight.

These are momentous questions, yet they are crowding hard upon us, and we have got to look them in the face, as unpaintable as they may be. I have not much faith in seeing those who have brought this fearful criefs upon our country, show patriotism and maniliness enough to confess their errors, rectify their mistakes, and restore the country to the safe and healthy condition in which they found it, but I shall never lose confidence in the mass of the people, nor distrust their right intentions until all hope is lost, and we are smitten down by the pariedal hand.

My connection of thirty years with politics and the press, gaves me some claims upon the people for at least a candid hearing.

If possible, let us save our country from the perils that surround it, and ourselves from the stigma of incapacity and National wickedness. Scrofula, or King's Evil

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The exceptions not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever he its origin it is breditered in the control of the control o above all, by the venereal infection. What-ever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon

Its effects commence by deposition from th blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, cruptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently vast numbers perish by disorders which, although not scroulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many dostructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this everywhere prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Eurpriva and Skin Diseases, St. Anthony's Fine, Rose, or Envirence, Penpins, Pustules, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPEPSIA, DERILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIA-TEN SE IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in

AYER'S Ague Cure,

contaminated constitutions.

FOR THE SPEEDY CURR OF Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, Indeed for the whole class of diseases originat-ing in biliary derangement, caused by the Malaria of Missmatic Countries.

We are enabled here to offer the community a We are enabled here to offer the community a remedy which, while it curss the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the miasmatic poison of Faven AND AGUE from the system, and prevents the development of the disease, if taken on the first approach of its premotivery symptoms. It is not only the best remody early at this case. velopment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittants is that it contains no Quining or mineral, consequently it produces no quinism or

cure of Intermittants is that it contains no Quining or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Yever and Ague is not alone the consequence of the minematic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headacht, Blindness, Toothache, Earache, Catarrh, Ashma, Palpitation, Painful Affection of the Spiem, Hystericz, Pain in the Bowels, Colic, Paralysis and Devangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cura" expeis the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protec-tion than cure, and few will ever suffer from Intermittents if they avail themselves of the protection
